- Contributed to the migration project from IDMS to DB2, ensuring a seamless transition.

### Technical Skills

1. C language
2. Mainframe
- 3 JCL/ COBOL
4. Java
5. Pega
- 6.SQL/ MYSQL

### Languages Known

Tamil  
English  
French-Read/Write

### Education Background

- PETIT SEMINAIRE HIGHER SECONDARY SCHOOL.

SRI MANAKULA VINAYAGAR  
ENGINEERING COLLEGE (B TECH -  
INFORMATION TECHNOLOGY)

- **CGPA: 8.49.**

**SSLC 94.6%**

**HSC 72.8%**

### About Me

I am a person who was very much interested in Software Development and in some Programming Languages . I aim to work in Challenging platforms in order to learn and develop my skills day by day efficiently for the Growth and Welfare of the Organization.

### Certifications

- 1.Introduction to CLOUD COMPUTING -EDX PYTHON basics for Data Science Cisco Networking Academy
- 2.Introduction to IoT, May 2022
- 3.Pega Certified System Architect
- 4.Pega Certified Senior System Architect
5. Introduction to Cloud Development with HTML , CSS

### Areas of Interest

- 1.Application Development and Maintenance.
2. Database Management Systems.
3. IT Security and Data Management.
- 4.Software Testing and Debugging

### Personal Traits

- Leadership
- Time Mnagement
- Diligent & Organized
- Responsible

### Email ID:

dheepakumar.baskarane@socgen.com

### Achievements:

- 1.Mini project- Digital Banking via Event Based Architecture
- 2.Udaan Yatri- A Mobile Gaming for kids to explore Indian Monuments and Historical Places.
- 3.Covid Detector-A Deep Learning Model to detect Covid 19 positive cases and predict patient's body conditions Hackathon
